Teaching Reading Strategies

Course Objectives

- Evaluate and select appropriate texts for use in class, considering aspects such as copyrights, vocabulary and grammar, relevance of the topic, and length.
- Use texts to effectively highlight and increase students' awareness of vocabulary and grammar use in context.
- Introduce skimming, scanning, and other such strategies and provide relevant opportunities to practice using such skills inside and outside of class.
- Differentiate intensive and extensive reading practices and make use of both in class, as per students' goal.
